The title in the printed patent is incorrect and unrelated to the patented subject matter, the consequence of which renders searches for the patent by subject matter and title difficult and defeats the purpose of notifying the public of the patented matter. The error is located at column 1, lines 1-3, and in field (54) on the face of the patent. The title should read, "COMPOUND AND METHOD FOR THE TREATMENT OF SINUSITIS." Attached is Form PTO/SB/44.

Applicants respectfully submit that the above mistake was due to Office error and not that of Applicants, and accordingly, there is no fee due. In particular, the file history indicates that at all times, the title of the application was "COMPOUND AND METHOD FOR THE TREATMENT OF SINUSITIS"; this was also indicated as late as the papers submitted by
